

The Pro Level Membership Program

Become the 'Go To' Expert in Spare Parts Inventory Management

Description

With access to all our key resources, a Pro Level membership will equip you with the know-how and skills to effectively optimize and manage all aspects of your spare parts inventory.

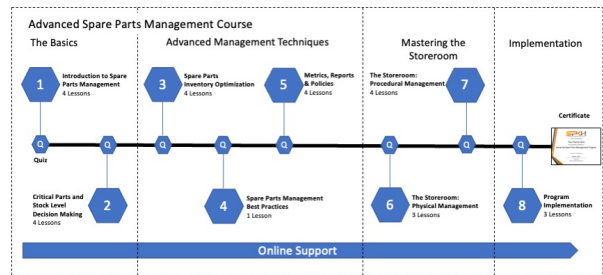

This membership will equip you with:

- certainty about your decision-making
- the confidence that you are doing what's required to deliver the results you need
- improved critical thinking skills in spare parts inventory management

As a result, you will know how to:

- Determine the right stock holding level for your spare parts
- Identify the critical spares that you really need to stock
- Develop spare parts management policies that really work
- Select the right optimization software for your company
- Make best use of industrial vending machines
- Manage MRO and spare parts procurement, avoiding the complexity trap
- Set up your storeroom for greatest efficiency
- Identify and achieve best practice
- Achieve 100% inventory accuracy

The Advanced Spare Parts Management Program literally changed my career path.

Jozef Ferenc
Lear Corporation

I now have a supply room policy and a procedure manual (detailed instructions) which includes a planned approach for adding stock and reviewing stocking levels and a plan for removing obsolete parts.

Sondra Carroll | Manager-Supply Room Solutions
Shaw Industries Group

Becoming a Pro Member means that you will know the right questions to ask, where to find the answers, and what works best to get results.

Six months' access gives you time to revisit the content and apply the 'learn by doing' principle to implement improvements.

As a Pro Level member, you get access to all of the following content:

Structured Training

Our Advanced Spare Parts Management Course

This is our flagship self-paced online training course. Incorporating 8 training modules this course covers all aspects of spare parts management. To achieve the certificate, you will need to pass a series of quizzes, we don't just give this out for 'showing up'!

Issue-Specific Support and Resources

Access to our online resource library

24/7 access to +300 white papers, articles, videos, and podcast files contained in our exclusive 'Know-How Center' and structured in an easy-to-find system that replicates the spare parts management life cycle.

Access to our searchable blog archive

Containing a further +300 posts of articles and videos, with new content being posted monthly. This is sorted by category, making it easy to find articles of interest.

Online Support

If you have a question about anything relating to the application of our content then you can just email us your questions. We will provide a prompt response guiding you to the right answer.

Policy templates

Downloadable copies of our exclusive policy templates covering the full suite of spare parts inventory policies.
